

Final Endeavor for the Generalized t -SNE Problem

Yi Gu

December 24, 2024

1 Progress So Far and Setup

This is it. We have reached this step and the end is within our grasp. We will try to replicate the results in section 2 of [1]. Recall that

$$\begin{aligned} F_{\rho, \mu}(x, \sigma) &= \int \frac{\exp(-w(\sigma \|x - x'\|^\theta))}{\int \exp(-w(\sigma \|x - x'\|^\theta)) d\mu(x')} \log \left(\frac{\exp(-w(\sigma \|x - x'\|^\theta))}{\int \exp(-w(\sigma \|x - x'\|^\theta)) d\mu(x')} \right) d\mu(x') + \log \rho \\ &= - \int \frac{w(\sigma \|x - x'\|^\theta) \exp(-w(\sigma \|x - x'\|^\theta))}{\int \exp(-w(\sigma \|x - x'\|^\theta)) d\mu(x')} d\mu(x') \\ &\quad - \log \left(\int \exp(-w(\sigma \|x - x'\|^\theta)) d\mu(x') \right) + \log \rho. \end{aligned} \tag{1.1}$$

2 Important Lemmas

3 The Rest of the Proof

4 Wrap Up and Conclusion
